## Innovative plan design and consulting

How does an organization ultimately benefit from a deferred comp plan? It benefits by designing a plan customized to meet the specific goals of the organization and its key employees. Working with you and your financial professionals, we guide you through a process that considers the right deferred comp benefit plan options to help achieve your goals.

First, we'll work hard to understand your organization and design a plan that makes sense with your short- and long-term goals. We want to identify those aspects that give you the most flexibility and versatility from things like:

- Participant eligibility
- Employee deferrals
- Employer contributions
- Earnings crediting
- Distribution options
- Vesting options
- Investment choices
- Security mechanisms

Plan design flexibility makes us a top provider for organizations of all types—for profit, not-for-profit, small- to medium-sized businesses, and large corporations. And we can tailor plan details—such as employer contributions, participant contributions, defined benefit, or a unique combination—designed to meet your objectives.

# \$ Multiple financing options

How will you pay for your key employees' benefits in the future? You can finance your plan however it works best for you and your organization's bottom-line goals. We offer all the common financing techniques and create detailed models to help you make an informed decision.

- Company cash, using company cash-flow
- Taxable investments, such as mutual funds
- Corporate-owned life insurance (COLI)
- Dual-financing, with a combination of taxable investments and COLI

## **Tax, actuarial, and legislative experts at your service**

To help you manage your assets and tax liability, our team of consultants will work alongside your financial professional to help tailor your plan to match your asset and tax strategy. Together, we'll find an effective financing approach based on detailed financial models.

We're speaking on behalf of employers like you on Capitol Hill, too. We're active lobbyists at both federal and state levels to shape legislation and how it impacts your organization's goals and your employees' ability to save for retirement.

We give you access to well-known internal and external investment managers and sub-advisors with respected reputations.

# ⚙ Efficient plan onboarding

Our priority is to work with you and your financial professionals to complete plan onboarding as easily as possible while ensuring accuracy.

Your dedicated client onboarding manager will talk with you about your unique goals, situation, and needs, and then create a tailored action plan. It'll include a timeline, plan design analysis, and investment mapping. We make document signing easy through electronic signature technology. Plus, we'll partner with you to create a strategy for educating your plan participants to help ensure the enrollment process and introduction to the plan starts off on the right foot. Throughout every step, we'll keep you informed and lead you through a smooth process.

**Prepare plan documents**

- Review plan documents.
- Complete and sign all paperwork.

**Roll out benefit**

- Communicate plan benefits.
- Help employees enroll, if applicable.

**Set up payroll and contributions**

- Alert your provider and make system changes.
- Confirm first contribution.

**Establish ongoing service**

Meet your client service manager, your key point of contact going forward.

# Dedicated plan administrative services

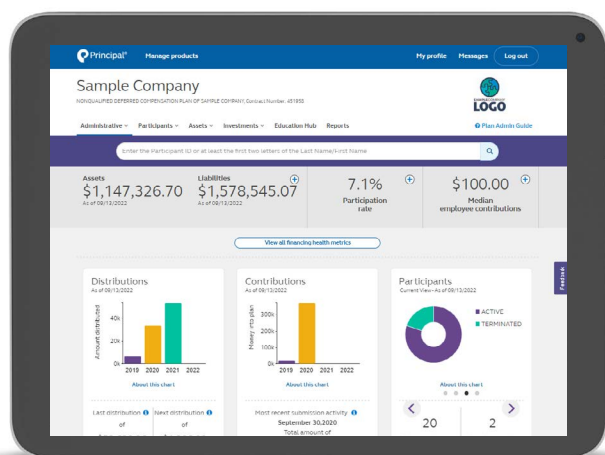

Once your plan is in place, you can expect the expertise, consultation, and responsiveness to continue. We'll partner with you to take the complexities out of plan administration and decision-making. Along the way, you can trust our commitment to high-quality operations reviewed by outside auditors annually.

Our approach to plan administrative services is designed to make your organization better and help your employees create a better financial future. And it starts with proactive education for you and your employees.

## Focus on you and your goals

You can expect tools and resources that give you convenient control and the information you need to drive positive organizational outcomes. Everything from enrollment to benefit payments will be easy and effective.

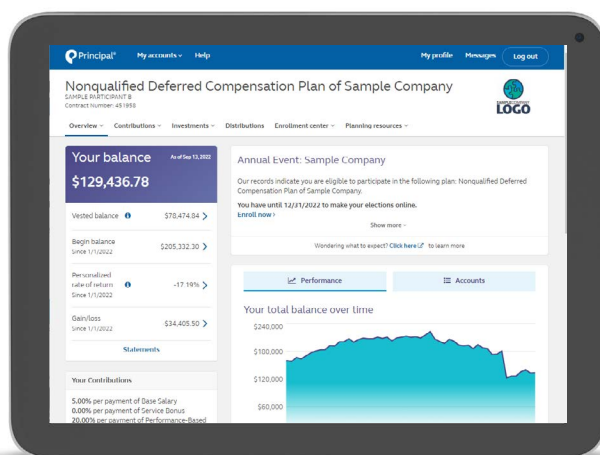

- Online plan management actions
- On-demand eStatements and reports
- Online plan administration guide
- Education and communication resources
- Digital tools and resources to manage the financing of the plan

## Focus on your employees

Each of your employees learns differently and understanding the plan's value is critical, so we keep them in-the-know and provide the tools they need to optimize their savings strategy.

- Online enrollment, data, and account management actions
- On-demand eStatements
- Participant communications to provide continued support and education
- Online learning center with education videos, resources, and tools
- Decision-making tools

“

Working with Principal to set up the plan and execute it over time has been a very pleasant experience. I was so impressed with the dialogue we had prior to execution to get exactly what we wanted set up. Then to roll out the plan the way they did, to speak with employees and explain to them how this was going to work and how it would benefit them.
